

AFC Pilot & Volunteer Recognition

MISSION MILESTONES

Pilots flying missions on behalf of Angel Flight Central earn one (1) mission milestone for each leg of a mission with an AFC passenger onboard; following submission of the mission report. Each AFC passenger that is a patient or each camper will have a separate itinerary even if they are traveling on the same aircraft. Companions do not have separate itineraries.

Each patient (or camper) on 1 mission leg = 1 mission milestone

Pilots earn AFC lapel pins for graduated levels of milestones at 5 flights, 15, 25, 50, 75, 100, 125 and 150+ flights. AFC pilots receive their lapel pin within 90 days of achieving each level. If a pilot has their record of previous flights with AirLifeLine (which merged with the angel flight organizations in 2003) they can be reported by the pilot and added to their total missions. This program is made possible through the generous donation of an AFC donor.
