

Volunteer Pilots *Give HOPE Wings*

Have access to an airplane?
Want to fly people in need?
Give back to your community?

Welcome to public benefit flying with Angel Flight Central!

Angel Flight Central [AFC] arranges charitable flights to serve **people in need** by arranging charitable flights for long distance transportation to **health care** or other **humanitarian purposes**. Your **gift of flight** as a **Volunteer Pilot**, to qualified passengers, is an investment in the lives of others who truly need your assistance. By sharing your time, talent and resources to help children and adults obtain health care not available in their home community or to fly special needs kids to attend camp or to assist in a disaster response effort; you are providing "hope" and "help" when it's needed most.

AFC Volunteer Pilots fly 1, 2 or 3-leg flights of approximately 300 NM each for passengers who cannot afford their own transportation, have compromised immune systems, need oxygen on board, need to consult a medical specialist or have a condition that restricts them from flying commercially.

Compassion flights help parents access their sick child in hospital. **Disaster Response** flights relocate patients and families to new medical facilities away from the disaster area or bring small cargo and key personnel near a disaster area. **Wounded warriors** need assistance **reuniting** with family. These are just a few examples of the variety of missions AFC pilots donate to help others.

AFC supports the **commitment, professionalism and safety** of Volunteer Pilots. We hope you will consider partnering with Angel Flight Central to "Give Hope Wings" as an AFC Volunteer Pilot.

Retired Pilots, Friends and Family can help by adopting an AFC Flight or providing funds to fly people who are unable to access small aircraft (adult wheelchairs) or their travel exceeds 900 miles.

Give HOPE Wings

Sometimes the shortest distance between "help" and "hope" is a runway.

Volunteer Pilot Minimum Requirements

AFC Pilots fly passengers who reside in the mid and Upper Midwest.

AFC welcomes any pilot who meets these minimum requirements to apply at www.angelflightcentral.org.

- + Be at least 21 yrs. old
- + Provide transportation at no cost to AFC or to those AFC serves as an in-kind donation
- + Hold, at minimum, a current and valid FAA Private Pilot Certificate
- + Hold a current & valid Medical Certificate, or Basic Med; as defined and required by the FAA
- + Instrument Rating required.
- + 250 hrs. logged as PIC and 500 hrs. Total Time or 250 hrs. logged as PIC and FAA Commercial Certificate
- + 8 hrs. logged as PIC in previous 90 days or 2 hrs. with CFI in previous 90 days or 4 hrs. PIC in previous 30 days prior to AFC flight in category, class and type of aircraft that will be used for flying AFC passengers
- + 25 hrs. logged in single-engine or 50 hrs. logged in multi-engine, turboprop or jet; in each category, class and type of aircraft that will be used for flying AFC passengers (No light-sport or experimental aircraft)
- + Assure aircraft is airworthy; as defined by the FARs
- + Carry \$1 million total with \$100,000+ per seat liability insurance or equivalent Non-Owned Aircraft Liability Policy; if owners policy does not sufficiently cover you as the pilot.
- + Complete online course: **Public Benefit Flying: Balancing Safety and Compassion** (AOPA/Air Safety Institute)
- + Pilot self-certifies meeting all FAA and AFC Requirements when requesting a flight and before each AFC flight.
- + For pilots 80 yrs. and older, agree to have a safety pilot (less than 80 yrs. old) on board the aircraft for any AFC flight as part of a two-pilot crew. As PIC you will verify the safety pilots flying credentials.

Join Today!

- + Apply online at www.angelflightcentral.org
