How does AFC Help:

Angel Flight Central provides FREE flights for people in need that originate in our 10 state region (Missouri, Illinois, Kansas, Iowa, Nebraska, Minnesota, Wisconsin, Indiana, South Dakota & North Dakota) coordinating with other charitable aviation groups to make flights happen all over the country.

We currently operate two programs: general aviation and commercial travel.

In our general aviation program, those seeking medical treatment or other compassionate and humanitarian purposes may request a flight under 900 nautical miles. Passengers need to be able to tolerate boarding and riding in a small aircraft. These flights are flown by our very generous and qualified 750 volunteer pilots with their own time and aircraft.

In our commercial travel program, we have a wonderful grant through Southwest that allows us to assist only medical travelers and one companion with a commercial Southwest flight that is over 900 nautical miles.

In both instances, we reach out directly to a passenger's medical professional to obtain a release to fly in a general aviation or commercial aircraft. We typically need 7-10 business days to properly arrange a flight.
